If there's a question bothering your brain,
That you think you know how to explain,
You need a test.

Yeah!
Think up a test!

If it's possible to prove it wrong,
You're going to want to know before too long,
You need a test.

If somebody says they've figured it out,
And they're leaving any room for doubt,
Come up with a test.

Yeah!
You need a test.

Are you sure that that thing is true?
Or did someone just tell it to you?
Come up with a test.

Test it out!
Find a way to show what would happen if you were incorrect,
(Test it out)
A fact is just a fantasy,
Unless it can be checked.

Make a test!
Test it out!

Pause (instrumental)

If you want to know if it's the truth,

Then friend, you are going to need proof,
Come up with a test.

Yeah!
You need a test!

Don't believe it coz they say it's so,
If it's not true you have a right to know,
Put it to the test
(Put it to the test)
And, test it out

(Put it to the test)
Put it to the test
(Put it to the test)
Put it to the test
(Put it to the test)
